Yes, I would like HRM to send teen-appropriate literature for distribution at my school, church, or center.

Yes, I would like more information about the House Of Ruth Maryland's Teen Dating Violence Prevention Initiative. (The Teen Dating Violence Prevention Initiative provides domestic and dating violence prevention, education and services to adolescents who have experienced intimate violence personally or who have witnessed it at home and to teens who are attempting to understand and maintain healthy dating relationships. The initiative also provides training to parents, school personnel and other youth services professionals on how to help teens build the knowledge and skills needed to prevent domestic violence from occurring in their lives.)

Please add me to the HRM mailing list.
